

Mobile Recording SD Card is the industrial-level video card, specially designed for VIPRO Mobile digital video recorders (MVR series). It has big capacity, fast read/write speed, data protection, and long life, etc.

Key Features

- High quality, industrial-level
- Using SMI controller with good compatibility
- Big capacity: 32GB/ 64GB*
- Fast read / write speed
- Optimization through wear leveling algorithm
- Nand Flash: high reliability and long life
- Work-temperature: -30°C~70°C; adaptive to extreme temperatures
- Low power consumption

Technical Specifications

Product series	Class 10 SD Card (32GB or 64GB)
Capacity	32GB, 64GB*
Reading Speed	19MB/s
Writing Speed	15MB/s
Service Life	10 years
Security	Built-in write protecting switch prevents data loss accidentally
Working Voltage	2.7V~3.6V
Standby Voltage	2.0V~3.6V
Working Temperature	-30°C~70°C
Dimension	24mm*32mm*2.1mm

(*) Optional
