

UPS is a high-performance back-up power solution, using internal electronic circuit to measure, calculate and storage battery data, which makes the use and management of power supply more predictable.

It solves the problem of high and low voltage pulse and can keep on recording, avoiding the interference of Mobile DVR on vehicles. 4 stage charging, bulk-absorption-float-storage. There is protection for low pressure / over-voltage, overload, over current, over temperature, short circuit, and reverse polarity.

Key Features

- Compact appearance, light weight
- Built-in fuse, ensure reliability and security
- Seamless connection with Mobile DVR
- Last for about 40 minutes when the vehicle is cut off power

Dimensions (unit: mm)

Technical Specifications

Product series	UPS (Uninterrupted Power Supply)
Type	LFP
Input Voltage	8~36V
Output Voltage	9.6V
Capacity	2000mAh
Max. Charging Voltage	10.5V
Charging Current	0.2C
Charging Time	5~6 hours
Charging Protection	Auto recover
Over currents Protection	Auto recover
Short Circuit Protection	Yes
Weight	650g / 1.433lbs
Dimension	123 x 88 x 42mm / 4.84" x 3.46" x 1.65"
Working Temperature	-10°C~+60°C / 14°F~ +140°F
Storage Temperature	-40°C~+85°C / -40°F~ +185°F
Cycle Life	2000 times ≥ 70% power capacity
